

1. Electrical Engineer f/m/d for Test Systems - focus on Technical Sales

Location: Graz, AT

Company: AVL List GmbH

Job Function: Instrumentation and Test Systems

Contract Type: Permanent

Posting Date: Jan 8, 2024

Job ID: 36199

As an experienced Electrical Engineer (f/m/d) you will have the opportunity to contribute your technical expertise to planning and project work. In close cooperation with the sales colleagues, your focus will be on two exciting areas:

- test systems for a wide range of state-of-the-art applications (including battery, electric motor, racing, combustion engine and fuel cell testing)
- as well as
- the integration of these test systems into a building system ([Tech Center Solutions](#)), tailored by AVL to meet the highest technological requirements.

In an environment with flat hierarchies, we offer you, in this role as Technical Sales Specialist, the opportunity to contribute a high degree of creative freedom. Together with a motivated team, you can play a key role in shaping national and international customer projects.

YOUR RESPONSIBILITIES:

- Concept planning of industrial electrical systems, automation solutions and technical building equipment (EMSR) for our test systems
- Carrying out Basic Engineering (single line, block diagram, utility matrix etc.)
- Detailed planning and cost calculation of measurement and control technology for PLC cabinets, low-voltage switchgear, transformers, medium-voltage switchgear and electrical installations
- Collaboration on feasibility studies
- Active interface function to customers and internal departments
- Creation of system descriptions
- Involvement and management of suppliers for switchgear and electrical installations
- Handover of sales to project management
- Further development of our system standards

YOUR PROFILE:

- Completed education (Secondary Technical College / University of Applied Sciences / Technical University) in the field of electrical engineering, power engineering or automation technology
- At least 5 years of practical experience in electrical planning and/or quotation processing
- Experience with EPLAN P8 and SAP is an advantage
- Team spirit, diplomatic and self-confident appearance
- Willingness to travel (nationally, as well as partially internationally) to a very limited extent
- Very good command of German and English, both written and spoken

WE OFFER:

- Homeoffice
- Flexitime Regulation
- Canteen
- Award-winning Training Programs
- Health Management
- Parental Leave Management (Maternity/Paternity Protection & Educational Leave)

Annual Remuneration: Due to the Austrian Equal Treatment Act we are obligated to state the annual gross remuneration (full-time) for this position as a basis for negotiation: €51,550.00. The Employee will be classified according to the Collective Agreement for Employees of Industry (Collective Bargaining Agreement of the Automotive Industry). We will, in any case, offer market-conforming payment taking qualifications and professional experience into account.
